## FEEDBACK ON PLAY-SPORTS PROPOSALS

The following proposals have been developed as a result of feedback from a village survey, input from a number of people associated with the Fen Ditton Toddler Group, who have experience with both young toddlers and the developing needs of older children, and our annual inspection from ROSPA.

We propose starting a refreshment programme of the play equipment, commencing with the oldest, with a similar timber themed approach whilst taking account of some new developments such as basket swings and educational/ imagination based equipment for toddlers.

For older children replacing the current goals posts with medium sized posts and, subject to survey, for older children and adults a possible trim trail and tennis court (subject to space/drainage restrictions).
